EXPERIENCE

Digital Specialist Engineer - Infosys

2021 - Ongoing

Infosys Private Limited is a prestigious company. It is a great place to work and learn a lot as a fresher. At Infosys I am working as a Digital Specialist Engineer. My roles and responsibilities in my project are working in the developement of the admin side usermanagement application, where I play a major part in Front-End, Back-End, Kafka and API level developement. This project is C# based application.

Intern Developer - QuantumVerse

05/2020 - 09/2020

QuantumVerse Private and a startup company. It is a great place to work and it gave me the knowledge about Designing. At QuantumVerse I was working as a Intern Dev where my roles and responsibilities are to work in both design and development projects. I play a major part in UI/UX and Logo Creations in Designing and Static Website Development, Mobile Application using React. In this company I had the oportunity to learn and work in both design and development projects.

ACHIEVEMENTS

I have participated in many Events in colleges where I have worked on some ideas both as a team and as a independent person. Among many projects few of the projects are UV (Unmanned Vehicle) for the DRDO compatetion, Reduction of storage space for CCTV footage using IOT and emotion monitoring Music system using convolution neural network.
